Nevada Continues to See Positive Trends Across Major Indicators

Labor market information from the third quarter (July through September) of 2018 has been released, allowing us to once again take stock of Nevada's progress over the course of the economic expansion via the Silver State's quarterly "Recovery Scorecard." The State continues to see positive trends across a range of measures, including ongoing job gains, the 4th fastest-growing private sector in the nation, strong small business employment, and relatively low unemployment rates and unemployment insurance claims activity.
