Top 10 Largest Industries by Employment Share

- In the Quarterly Census of Employment and Wages (QCEW) Program, the Research and Analysis Bureau collects and compiles employment and wage data for workers covered by Nevada unemployment insurance laws, and federal civilian workers covered by Unemployment Compensation for Federal Employees. Data for this comparison is taken from the QCEW program for each state.
- These cities were chosen on the basis of being of similar population (2017) to the Las Vegas-Henderson-Paradise Metropolitan Statistical Area (Las Vegas MSA). The table above is a comparison of average weekly wages paid by the 10 most prominent (in terms of employment share) in the Las Vegas MSA. The rankings are based on that industry's (2-Digit NAICS) share of total private employment in the respective MSA.
- Accommodation and Food Services is number one in the Las Vegas area in terms of employment share. The average weekly wage in this industry exceeds the other metro areas by an average of \$170 or approximately 34 percent. Accommodations (NAICS 721) pays an average of \$798 per week while employing 62 percent of the total for the greater sector, Accommodation and Food Services. In the other metros listed, the same share ranges from 9 percent to 47 percent. This mostly explains the relatively high wages in the Las Vegas MSA for this industry.
- The only two industries in which Las Vegas has a lower average weekly wage than the other metros are Manufacturing paying 36 percent less on average and Administrative and Waste Services paying 26 percent less.
